This is in response to your request under the *Access to Information Act* (ATIA), *received* by Transport Canada on June 5, 2024, for the following information:

> **"Please provide the publication made by the Transportation Development Centre sometime during or before 2010 which would have been originally available at https://www.tc.gc.ca/innovation/tdc/publication/pdf/14400/14495e.pdf It would have been related to the logical functioning of the Ontario COMPASS, RESCU, FTMS, ITMS, or similar traffic management systems, based on its citation in this Wikipedia article (https://en.wikipedia.org/wiki/Freeway_Traffic_Management_System), and originally accessible from the list of publications as seen on the archived home page (https://web.archive.org/web/20100325213813/http://www.tc.gc.ca/innovation/tdc/menu.htm). Judging by the URL structure, the publication number for this item could be 14495E but due to the original website showing a 404 error through the Archive.org copies, this cannot be verified."**

We have now completed the processing of your request. You will note that records are released in full.

Please be advised that you are entitled to submit a complaint regarding the processing of this request to the Office of the Information Commissioner of Canada, 30 Victoria Street, Gatineau, Quebec K1A 1H3. The ATIA allows a complaint to be made within 60 days of the receipt of this notice.

Should you have any questions, you may contact Julia Silva at 343-572-1668 or via e-mail at julia.silva@tc.gc.ca.

Canada

Yours sincerely,

Renaud, Stephanie
